

WWP 45

With an hourly pump capacity of up to 45 m³ of water, the WWP 45 waste water pump impresses with a powerful petrol engine in applications where there is no external power supply.

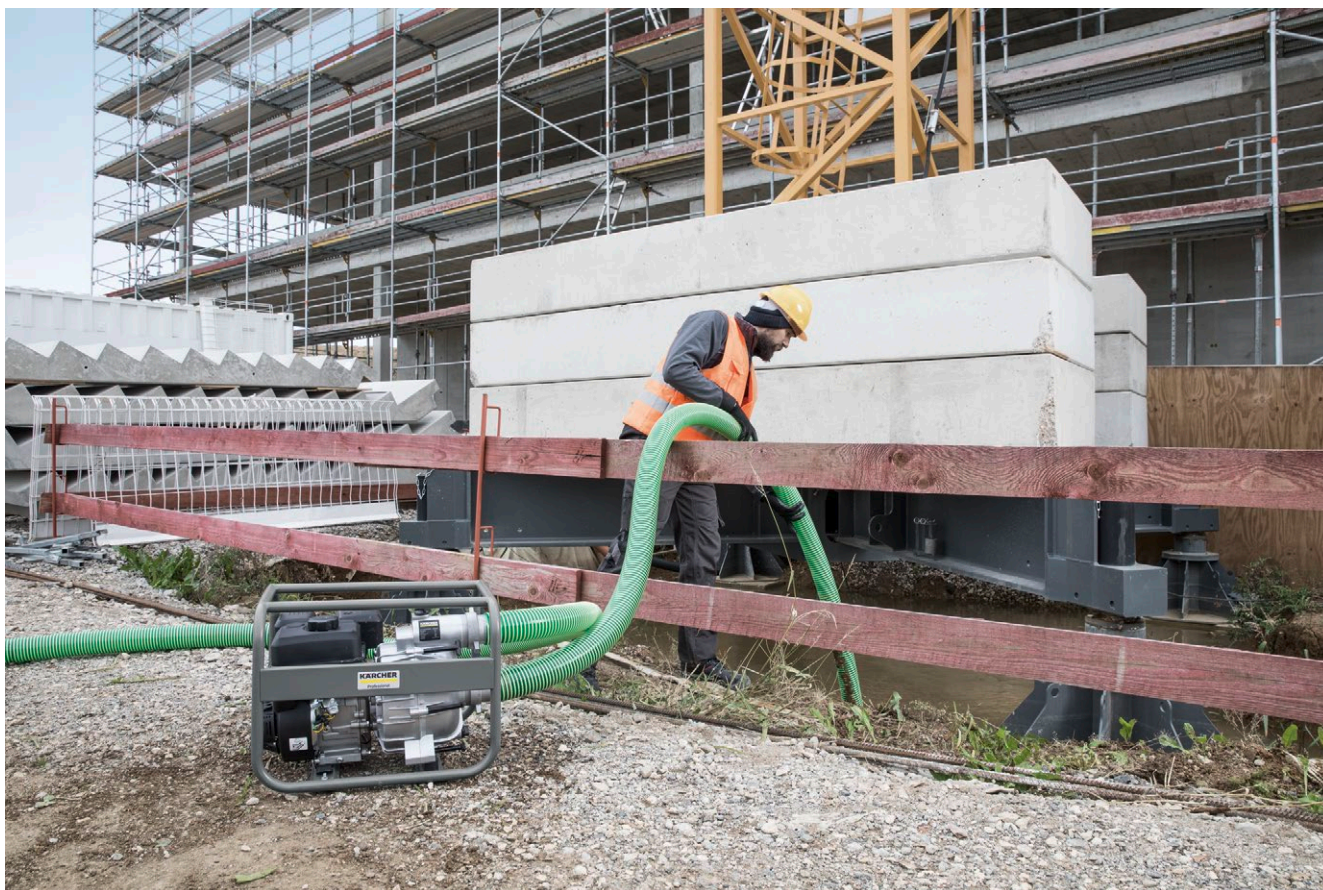

1 Developed for tough applications

- A robust tubular steel frame reliably protects the machine against damage.
- Also easily processes coarse particles up to a size of 30 millimetres.

2 Very powerful

- Uninterrupted pumping of up to 100 m³ of water per tank filling.
- For the quick pumping of very large water volumes (750 l/min or 45 m³/h).

WWP 45

- Recoil start with manual choke
- Compact dimensions and low weight
- Robust cage frame
